

HCS#2 HB 1462 -- MISSOURI QUALIFIED BIODIESEL PRODUCER INCENTIVE  
FUND

Currently, a producer is eligible to receive payment from the Missouri Qualified Biodiesel Producer Incentive Fund for 60 months unless it fails to receive the full amount due to a lack of appropriations, in which case it is eligible for up to 24 additional months. This bill removes the 24-month limitation and allows a producer's eligibility to continue until he or she has received the maximum amount of funding for which he or she was eligible during the original 60-month time period.
